MISCELLANEOUS.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headaches ensue; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons' Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED. A general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., it hardly ever fails to cure, and has been tried in the most difficult cases. It seems to be almost a perfect cure for all diseases of the stomach and bowels.

W. J. McELROY, M.D., Ga.

The earliest known form of necklace outside of such primitive types as shells and bits of colored stone comes from Egypt. They were of two kinds—ornamental and what may be called, for the lack of a better word, superstitious. The former were composed of small stones, which were apparently the favorite color, set in silver or gold and joined together in a chain. The latter, the amulets, were made of figures of gods, from three to seven inches long. Three or four of these were hung in a chain of beads.

The sacred images were believed to ward off danger of infection, misfortune or bad luck. Sometimes these amulets had no gods on them, but were composed of cowrie or bits of stone arranged in the form of a horn, fish or crescent, emblematic of their supposed powers. This superstitious power of the necklace is widely spread today among people who are not very high in civilization. In South America there are found necklaces of a peculiarly marked sort which belong to a plant growing only on the mountains, along the snow line. These seeds when first gathered are blue in color, and are strung on strings. They are highly valued, not only for their beauty, but because of the great difficulty in obtaining them. In the great cities, which are found now and then, strings of these seeds are often discovered, and they are supposed to bring the greatest possible luck, especially to children.

But one does not have to go among the people of South America or the negroes of Africa with their gaudy necklaces to find evidence of superstition. Thousands of people place necklaces of coral beads around the necks of babies with the belief that they will assist the children in learning to walk. In the great cities, which are found now and then, strings of these seeds are often discovered, and they are supposed to bring the greatest possible luck, especially to children.

Among men who have worn the necklace must be ranked the warriors of ancient times. The gold torques of the Celts, the massive gold necklaces of the Medes, Etruscans and Egyptians, which formed the most valued insignia of the warrior class, have come down to us through the pictures in the tombs and the actual specimens in the museums. Thousands of these were worn by the warriors of valor and as marks of civil distinction. The latter survive today in the gold chains of office worn by the mayors of cities in the old world.

All orders of knighthood had the necklace or collar as a principal insignia, and this custom of decoration with the necklace dates back at least as far as the time of Joseph, for as a mark of his authority in Egypt, Pharaoh gave him a gold chain about his neck. The women of antiquity rarely wore them except as brides, when to mark the respect in which they were held necklaces were placed upon them. The necklace, however, was a prominent adornment of the statues of the gods.

The ornament of the necklace was so valued that when the Saxon dynasty was overthrown by the Normans all persons below a certain rank were forbidden to wear them under heavy penalties. In the reign of Henry VIII, that king celebrated both for his wives and his revolt against Rome, any one who had not £200 per year income could not wear a necklace.

In England amber has always been one of the favorite materials for the necklace. Even in the barrows of the early Britons amber beads are found, and the specimens of necklaces from the reign of Charles I have amber set in gold. The Puritans abolished them as they abolished everything they laid their hands on which savored of ornament, but the necklace was revived again under the merry monarch more extravagantly than before. —New York Press.

SONOMA INDEX-TRIBUNE

SONOMA, JUNE 9, 1888.

Communications upon matters of local or general interest solicited.

SONOMA VALLEY AND THE MECHANICS' INSTITUTE.

The twenty-third industrial exposition of the Mechanics' Institute will open in San Francisco on the 7th of next August and continue to the 15th of September. Wm. P. Stout, the general agent of the Institute, paid Sonoma Valley a visit this week, his principal object being to urge upon our people to again enter into competition for the various prizes to be offered for general and individual displays. This year the Institute offers the following liberal awards. It will be seen, however, that the principal prizes are to be given to county displays only:

For the best, most extensive and varied exhibit of farm products, exclusive of live stock, by any county in the State. \$1,000 00
For second best display. 800 00
" " " " " " 500 00
" " " " " " 400 00
" " " " " " 300 00
" " " " " " 200 00

In addition to the above premiums individual cash awards to the number of 45 will be made in sums varying from \$10 to \$75.

Now, as it will be impossible for Sonoma Valley to set up an exhibit independent of the county this season to compete for the prize, as only counties will be allowed to do one of two things—that is to say, they will have to join the county in making a display if they wish to win recognition at the hands of the judges of awards, or they may exhibit independent as an advertisement for the valley while the Fair is open and sacrifice their chances of securing a part of the cash premiums offered for the general displays and the glory that will follow.

Of the two propositions it would seem to us our people would look upon the first with most favor. Last year Sonoma Valley in securing the \$1000 premium over all the counties in the State, her own included, won that recognition to which she was justly entitled to but which had been denied her for years on account of joining in with the county in these annual displays. The lesson taught the county last year, if we mistake not, has been a wholesome one, and has opened the eyes of the Santa Rosa people to the fact that the products of the whole county are not centered in that town, and that without Sonoma Valley it is impossible for the county to successfully compete for the prizes offered by the Mechanics' Institute. Having gained our point and captured the cream of the awards last year, would it not be doing the handsome thing to "bury the hatchet" and show our magnanimity toward Santa Rosa by joining in with the county this year? Should Sonoma Valley do this there can be no question about the result. The first prize will be awarded to Old Sonoma, and our valley will secure her share of the money and honors.

Having won the first premium last year, it will not do for Sonoma Valley to rest on her laurels. Another exhibit must be made this year, be it with the county or not. But all things considered the wisest move it would seem would be to join in with the county and make one of the grandest and most varied displays ever seen at a Fair in this State.

A divorce case, in which the husband acknowledged that he had contributed for the support of his family during the past seven years the sum of \$7, was heard in a Sacramento court the other day.

"I wish I had some candy," said one of a group of children sitting at the roadside. "And I wish I had a nice big wax doll," said another; while a sweet-faced, fair-haired child sighed for a package of Fries's Hamburg Tea to make dear mamma well.

It was not long before the listener returned with some of this most popular medicine as a reward for her kind devotion.

THE DEMOCRATIC STANDARD

CLERK.

CLEVELAND and Thurman have been chosen by the St. Louis Convention for President and Vice President of the United States. From a Democratic standpoint the nominations are about the strongest that could have been made and there will be few if any kickers in the party over the selection. Pacific Coast Democrats are especially well pleased with the nomination of Allan G. Thurman for second place on the ticket. As a Senator of the United States he has always favored legislation beneficial to this coast, and in various ways has shown a friendly feeling for California. That his name will strengthen the ticket in the Pacific Coast States hardly admits of a doubt, but as the Republican party has men in its ranks equally as popular with the people on this side of the Rocky Mountains, by a wise nomination at Chicago they may be enabled to offset Thurman's popularity on the shores of the Pacific.

The printing press, says the Whitesboro News, has made kings and presidents, killed poets, furnished bustles for beauties and polished genius with criticism. It has made worlds get up at roll-call every morning, given the pulpit lungs of iron and a voice of steam. It has set the price on a bushel of wheat, and made the country post-office the glimmering goal of the country scribe. It has curtailed the power of kings, graced the pantry shelves and busted; it has converted bankers into presidents; it has educated the homeless and robbed the philosopher of his reason. It smiles and kicks and cries and dies but it can't be run to suit everybody, and the editor is a fool who tries.

BOARD OF SUPERVISORS.

MONDAY, June 4, 1888.

The Board of Supervisors met in regular monthly session at the Courthouse, Santa Rosa, this date at 10:30 A. M. Present, Supervisors Connolly, Davis, Coulter, Allen; John O'Hara in the chair. The examination of Road Overseers' reports occupied the time of the Board up to the noon adjournment.

AFTERNOON SESSION.

The Board re-assembled pursuant to adjournment at 1 P. M., members present same as at morning session. The following-named Road Overseers' reports were received and placed on file and the accompanying bills allowed: D. W. Long, Vallejo road district, \$213; W. F. Harris, Washington, \$74; A. R. Bell, Healdsburg, \$252.61; C. J. Parkerson, Mendocino, \$169.69; Gallant Rains, Petaluma, \$346.32; E. F. O'Leary, Analy, \$747.51; C. Y. Caldwell, Santa Rosa, \$271.45; H. A. Russell, Fulton, \$412.51.

On motion of Mr. Allen, the petition from citizens of Analy township for a division of the township into two road districts to be known as Bloomfield and Sebastopol districts, was granted. Mr. Allen's motion also established the boundaries.

In the matter of the petition of J. Scott, W. H. Knowles and others of Ocean township, asking for the formation of a new school district at Ingrams, and to be known as the Montgomery district, there appearing to be considerable objection to the project by those interested, Mr. Connolly moved that Friday, July 6th, be set for the further hearing of the subject matter. So ordered.

On motion of Mr. Coulter, contracts were awarded to the following parties for furnishing the supplies of the County Farm and Hospital: B. M. Spencer, Howell & Bryant for groceries, and to Noonan & Towey for meats.

At 5 P. M., the Board adjourned until Tuesday morning at 9 o'clock.

TUESDAY, June 5, 1888.

The Board met this date pursuant to adjournment at 9 A. M., all members present, chairman O'Hara presiding.

On motion of Mr. Coulter, a part payment was made on the contract of the King Iron Bridge Company for work done on the Sonoma bridge.

On motion of Mr. Allen, the monthly allowance to indigents was allowed, the total of which is \$388.25.

On motion of Mr. Coulter, the report of A. J. Packwood, Road Overseer of Russian road district, was received and placed on file, and his bill for \$48.28 was allowed.

At 12 o'clock a recess was taken until 1 P. M.

AFTERNOON SESSION.

The Board re-assembled at 1 o'clock, members present same as morning session.

received and placed on file, and the bill for \$543.58 was allowed.

P. L. McGill, Road Overseer of Sonoma road district, addressed the Board in reference to the collection of road taxes from the men employed in the construction of the Santa Rosa and Carquinez Railroad. He said he had met with a positive refusal from all of them, even to the department foremen and Superintendent, and had been told that they could not be made to pay the tax. He did not feel warranted in bringing action against the delinquents unless authorized by the Board.

Mr. Coulter was of the opinion that the tax could not be collected, but thought it would be well to find out the reason why.

Mr. Allen thought the law in the premises was sufficiently explicit, and thought the duties of Mr. McGill were clearly defined.

Mr. McGill wanted to know who would stand the expense if he was beaten in a suit.

Mr. Allen said the road district would be responsible.

Mr. McGill was not pleased with this view of the case. He would rather lose the \$200 or \$300 of taxes than have the road district encumbered with the expense of the suit, providing it was lost.

Mr. McGill was advised to seek advice from the District Attorney.

The balance of the afternoon session up to the hour of adjournment, was occupied with the consideration of bills.

At 5 P. M., the Board adjourned until Wednesday morning at 9 o'clock.

A Mammoth English Grapevine.

The largest specimen of a growing vine in Great Britain is a Black Hamburg vine in Kennell, in Perthshire, Scotland. This vine, planted about 56 years ago, has a main stem 22 inches in circumference and completely fills a glass house 270 feet long, and is still growing as rapidly as ever. Its yield last year was 2548 bunches, of which only about 500, averaging about two pounds each, were allowed to mature. A substantial subsoil of leaf mold was used when the vine was planted, but the only extra material which the vine now receives is broken bones in half-inch pieces. This vine exceeds in size the famous Black Hamburg at Hampton Court, the principal branches of which are about 110 feet long, though its trunk is 38 inches in circumference.

To Preserve the Natural Color of Flowers.

A method of preserving the natural color of flowers consists in dusting salicylic acid on the plants as they lie in the press, and removing it again with a brush when the flowers are dry. Red colors in particular are well preserved by this agent.

A Stab in the Dark.

Sometimes falls of its murderous intent. The insidious and dastardly attacks made upon the reputation of Hostetter's Stomach Bitters by persons who seek to palm off cheap and derv tonics as identical with it; or "the same thing under another name," or "equally as good," in most instances react disastrously upon the principles of the Bitters. The Bitters is a pure, wholesome and thorough medicine, adapted to the total cure and prevention of fever and ague, bilious remittent, dyspepsia, constipation, biliousness, debility, nervousness and kidney troubles. Its every ingredient, unlike those in the imitations of it, is of an ascertained standard of excellence, and while they, by reason of their fiery properties, react injuriously upon the brain and nervous system, of both those organs it is a sedative and invigorant. Refuse all these harmful imitations.

A WOMAN'S WAY.

A Startling Business Proposition.
A little over six weeks ago Mrs. Fowler of 227 Mills street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Balm would have in cases of dyspepsia and sick headaches. She was assured that in most cases it would relieve the trouble. She was, however, not satisfied that finally she bought a bottle, and tried it. She found it to be a most effective remedy. It relieved her dyspepsia and sick headaches, and she was able to resume her usual work. She was so much pleased with the result that she wrote the following letter to the druggist who sold it to her.

San Francisco, February 8, 1888.
Dear Sir: I write to you to say that, notwithstanding the fact that I have been cured of my dyspepsia and sick headaches, I have not yet been able to get rid of the cause of the trouble. I have tried many remedies, but I have not found any that will cure me. I have, however, found that Joy's Vegetable Balm will relieve the symptoms, but I have not been able to get rid of the cause. I have, therefore, written you to ask if you can give me any advice as to what I can do to get rid of the cause of the trouble. I am, very respectfully,
Mrs. M. Fowler.
227 Mills street.

A LUCKY TRIAL.

DEAR SIR: It affords me great pleasure to send you this voluntary statement of my experience in testing the merits of Joy's Vegetable Balm. For the past five years I have been troubled with an exceedingly bad case of dyspepsia and sick headaches. I have tried many remedies, but I have not found any that will cure me. I have, however, found that Joy's Vegetable Balm will relieve the symptoms, but I have not been able to get rid of the cause. I have, therefore, written you to ask if you can give me any advice as to what I can do to get rid of the cause of the trouble. I am, very respectfully,
Mrs. M. Fowler.

A Card.

I hereby express my thanks to my many friends who assembled at the Mervyn Hotel on last Monday night to bid me good bye. This occasion I can never forget. I also wish to say that words are inadequate to express my feelings towards that estimable lady, Mrs. J. T. Peters, whose kindness and words of encouragement have been so tenderly extended to me. A kind mother could not have done more. All that I have to offer to her in return is my prayers and to pray earnestly for her and her family. May they have happiness on this earth and a bright reward beyond.

The daily stage service between Santa Rosa and this place has been discontinued. The stage between Napa and Sonoma has also ceased running. The completion of the Santa Rosa and Carquinez Railroad has driven both stage lines out of business, and henceforth travel between the above places will be by rail. *
Fourth of July will be observed in Sonoma this year by a grand ball in the evening at Union Hall. It will be given under the auspices of Sonoma Parlor, No. 111, N. S. G. W., which is a sufficient guarantee that no pains will be spared to make the occasion one long to be remembered with pleasure by those who attend. Excellent music has been engaged and the hall will be tastefully decorated for the occasion. *
Jerry Murphy, aged about forty years and a native of Ireland, was found wandering aimlessly around in the eastern part of town yesterday by Constable Sparks and placed under arrest. He was hatless and shoeless and is evidently insane. He claims to have been in both the Napa and Stockton Asylums, and says he has been killed a thousand times in the latter institution. He will be taken to Santa Rosa for examination.

THE DONAHUE EXTENSION.

Napa and Marin Railroad Nearly Completed to Sears Point. The Napa and Marin Railroad (the Donahue extension) will be completed and in running order to Sears Point on the Sonoma Valley Railroad in a few days. Rails are laid a distance of seven miles and the two draw-bridges, one over Navarro the other over Petaluma creek, are entirely completed. When the connection is made the Sonoma Valley Narrow Gauge Railroad will be used to transport passengers from Sonoma and way stations to Sears Point, where they will change cars and take the Napa and Marin Railroad for San Francisco via Tiburon. By this change the trip to the city will be made inside of two hours from Sonoma. The above arrangement will be only temporary, however, as it is Col. Donahue's intention to eventually broaden out the Sonoma Valley Road from Sears Point to Glen Ellen and make it a standard gauge. The narrow gauge road from Sears Point to Sonoma Landing will continue to be used for carrying freight, such as basalt blocks, etc., to the latter point, whence it will be conveyed by schooner to San Francisco and other points on the Bay. *
Action Commenced. F. P. Bacon has brought suit in the Superior Court, San Francisco, against the directors of the Sonoma Valley Improvement Company, the Sonoma Valley Water Company and the Verano Land Company, to compel them to appear in court and disclose their interest in the lands of the several companies named above. Mr. Bacon is one of the directors of the two latter companies and the suit is the outcome of a disagreement between the several companies regarding the purchase of the Clarke ranch, near this city, and which is now the property of the Sonoma Valley Improvement Company of which Chas. F. Crocker of the Southern Pacific Company is President, and Messrs. Geo. H. Maxwell, F. S. Douth, F. A. Frank and Wm. Hood are directors. *
Election of Officers. Juanita Parlor, No. 20, N. D. G. W., held its election for officers last Tuesday evening. The following were selected: Miss Etta Raschen, President; Miss Katie Green, First Vice President; Miss Pauline Robin, Second Vice President; Miss Sophie Baettge, Third Vice President; Mrs. Mary McFarvey, Recording Secretary; Miss A. Raschen, Financial Secretary; Miss Bertie Sydnor, Treasurer; Miss Grace Johnson, Marshal. The officers will be publicly installed at Odd Fellows Hall on the evening of July 3d. *

Farewell Party.

A farewell party was given to Miss Agnes Small at the Merry Hotel, Glen Ellen, on Monday night last, which was attended by all the young ladies and gentlemen in that vicinity. When Mr. John Small sold out his business in the above place on account of failing eyesight, Miss Agnes was taken in charge by Mrs. J. T. Peters, who prepared her for her first communion, which she took last Sunday in St. Francis Church in this city. Miss Small departed last Tuesday to take up her home in Vallejo and will be very much missed in Glen Ellen, having resided there for about four years, during which time she has made many warm friends in our sister town. The following were present at the party and wish the young lady a bright future in her new home: Miss May Theickoff, Miss Sophie Williams, Miss Nettie Law, Miss Lula Law, Mrs. H. Law, Miss Mattie Peters, Miss Emily Tarrant, Mrs. K. Durran, Mrs. M. Paterson, Mrs. E. O'Sullivan, Mrs. F. G. Theickoff, Miss E. Durran, Mrs. Wm. Sobbe, Miss Nellie Peters, Miss Nonnie Peters, Miss Sophie Tarrant, Miss Louise Tarrant, Miss J. T. Peters, Glen Ellen; Miss O. Hartmann, Miss H. Magnin, Miss Lizzie Ryan, San Francisco; Mrs. A. Lewis, Sonoma; Messrs. J. H. Brown, Harry Griewald, H. J. Chauvet, R. C. Chauvet, W. B. Durran, A. J. Albers Jr., James Albers, G. Albers, J. H. Wise, J. E. Tarrant, A. J. Williams, Wm. Sobbe, Walter Gaskin, E. W. Kretsch, C. W. Berryman, J. J. Law, J. T. Peters, Nelson Jones, Glen Ellen. *
Chas. J. Poppe and J. A. Farmer were elected Trustees of the Dunbar School District last Saturday. *

Considerable rain fell here last week and we hope the damage to hay will not be as bad as is reported. *
A part of the wagon road leading to the new depot at this place has been graded by the railroad company. Some extra work will be necessary to complete it. *
OLD TIMER. *
Storing Hay. In the storing of hay in the barn I found a shrinkage of from 17 to 23 per cent. I did not ascertain whether the loss was moisture or dry matter, but certainly it was largely water. If further investigation finds a material loss in this direction, it will be a strong argument in favor of the silo, or of compacting hay, as done by the advocates of half-dried hay. Dr. Armby quotes foreign trials touching the digestibility of stored hay in the Fall, and again in the Spring, as follows: At the time of cutting, 62 per cent; three months after cutting, 56 per cent; in the Spring, 54 per cent. Possibly the result may be due to the impaired digestive capacity of animals in the Winter and in the Spring, but it is not probable that the whole difference is thus caused. I stored weighed corn fodder where air circulated over and under it, and got a startling shrinkage, that certainly involved the substance of the fodder heavily; 2071 pounds weighed in Winter only 1080, and 1977 came out 1140 pounds. It is probably best to mass and compact hay as firmly as possible. The housing of hay will pay a high rate of interest on good shelter. With improved housing tools, the cost of housing is not now severe or laborious. The value of salt and lime in preserving hay is often debated, and is of questionable value. The use of lime is more than doubtful, while an excess of salt induces thirst, and is found undesirable. —Prairie Farmer. *
Simmons Liver Regulator Is what the name indicates a "Regulator" of that most important organ, the Liver. Is your Liver out of order? Then is your whole system deranged, the breath offensive, you have headache, feel languid, dispirited, and nervous, no appetite, sleep is troubled and unrefreshing. Simmons Liver Regulator restores the healthy action of the Liver. *
The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Haro, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or blood. Only a half dollar a bottle at E. Wegner's Drug Store.

Verano.

There is a good prospect of a large and pleasant camping party by the creek at the new town of Verano during the coming Summer. Many of these campers hail from that part of San Francisco called "the Mission," and to keep alive the pleasant social relations brought about by their camp life they have one or two social reunions every year. One of these was held at the Mission on Friday evening, May 11th, when a unique and original program was performed, among the numbers presented being the following original song by the laureate of the camp. The "campfire" socials of "Mission camp" have become famous for their excellent impromptu programmes and jolly good times, and the campers propose to make things pleasant and lively in the valley during their stay: *
I have seen many lands on this planet of ours, *
And wonderful things not a few; *
I have been to Australia, New York and Japan, *
To India, Brazil and Peru. *
I have stood on Mount Shasta, Mount Hood and the Alps, *
And looked down on the plains of Montana. *
But I've never seen a land in this beautiful world *
That at all could compare with Verano. *
They sing of the beautiful vale of Cashmere, *
With its treasures of rubies and gold; *
They talk of the valley that borders the Rhine, *
With its castles a thousand years old. *
They sing of the valley where flows father Nile, *
Of the Tiber, the Thames and the Arno, *
But the Vale of Sonoma is fairest of all. *
For there lies the peerless Verano. *
They sing of the climate, the breezes of And the health-giving airs of the South; *
But the winters and summers they never record. *
When its either a flood or a drought, *
In the Vale of Sonoma the crops never fail. *
And the climate surpasses Havana. *
The people enjoy all the blessings of life, *
And nobody dies at Verano. *
The fair girls of England have often been sung, *
And the dark senoritas of Spain. *
The ladies of France are expert in the dance, *
And the Germans both handsome and plain; *
The fair Boston girls can talk Latin and Greek, *
Write a poem or play the piano; *
And if any are fairer or smarter than these *
They can only be found at Verano. *
The Indies have birds with their plumage of gold, *
That flash in the hot summer day; *
The African forests resound the harsh note Of the parrot, flamingo and jay. *
The fields of paradise are filled with the song Of the meadow-lark's silver soprano, *
While forest and mountain re-echo the strains Of the song-birds of lovely Verano. *
The fruit of the Islands they laud to the skies, *
And they deem it a luxury rare. *
Their pineapples, citrons and guavas, they ween, *
Are fit for an Emperor's fare. *
In the Vale of Sonoma so sweet are the fruits, *
We crave not the sickly banana; *
Joy the peasant boy eats his fill with glad joy Of the ripe, luscious fruit of Verano. *
There Spring wears her jewels of emerald and pearl, *
And Summer her sapphires and gold; *
Her olive and wine the rubies and diamonds, *
When Autumn her treasures unfolds. *
There the flowers ever bloom, and their fragrant perfume pervades the air. *
Steep the soul in a blissful nirvana, *
And a foretaste of Heaven is graciously To the dwellers of lovely Verano.

A Warning. The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat, and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and it allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Beecher's German Syrup. It will give you immediate relief. *

Treasurer John Tivnen presented his report dated April 20, 1888, and on motion it was accepted and his bondsman released. It was moved and carried that the sum of \$25 be appropriated for the improvement of the Plaza. On motion \$5 was appropriated for sprinkling the streets during the month of June. No further business coming up the Board then adjourned. *
Railroad Accident. The first accident which has occurred on the Santa Rosa and Carquinez Railroad, happened Monday evening on the arrival of the late train from Napa Junction. The train was being switched to be ready for moving out in the morning and the baggage master, M. J. Riddle, had undertaken to couple the train into another car. In so doing he was struck by the moving cars and was crushed between them. When picked up he was thought to have been fatally injured, but a medical examination made at the Grand Hotel, whence he was removed, revealed his injuries to consist simply of a broken collar bone and several bruises. —Republican. *
A good advertisement, says an exchange, is the best of all possible salesmen. It is a salesman who never sleeps, who goes after business early and late, accepts the merchant in his shop, the scholar in his study, the lawyer in his office, the lady at her breakfast table, who can talk to a thousand people every day saying to each one the best thing in the best manner. *
A Woman's Discovery. "Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus wrote W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at E. Wegner's Drug Store.
